Summary

My name is Adetunji Adeyinka and I am a full-stack developer.

I implement Nextjs, Reactjs, and Vuejs for my frontend projects.

I implement Php, Laravel, and Nodejs for my backend projects.

I implement MySQL, MongoDB, and firebase for database management systems.

I implement git, GitHub, and bitbucket to coordinate my dev operations and collaborations.

I also have a keen interest in photography.

Experience

Front-End Developer

Venture Garden Group

Apr 2022 - Present (9 months +)

- Worked on a Key Performance Indicator by refactoring the codebase, fixing bugs, and updating the structure
- Worked on styling the user interface using SASS
- Worked on implementing redux and Axios to query the backend API
- Maintained some current live applications by fixing bugs and other issues
- Integrated Azure DevOps in deploying the project

Back End Developer

HNG Internship

Oct 2022 - Dec 2022 (3 months)

Coverly - Coverly is an outstanding and efficient website that helps job seekers to generate cover letters for any position. Applying for different jobs with different cover letters can be tasking, which is why we are here to help job seekers generate outstanding Cover letters for any position.

<https://coverly.hng.tech/>

- Assisted a group of two in setting up the project's structure
- Worked with GPT3 API in generating cover letters using the user's CV
- Worked on uploading middleware for subendpoints
- Worked on creating the admin dashboard using admin js
- Worked on authentication using admin js
- Worked on the endpoint for customer stories, blogs, and CV
- Worked on the eslint and prettier configs
- Worked on creating the template and endpoint to send the user's generated cover letter to their CV

Full-stack Developer

GenZtechies

Jul 2022 - Jul 2022 (1 month)

Genztechies had an annual hackathon. Some developers including myself worked on creating a certificate generator for the hackathon participants.

<https://gzt-hackfest-2022-certificate.vercel.app/>

- Worked on the user interface for users to download their certificate
- Worked on generating the certificate using canvas API
- Integrated Vercel for deployment

Frontend Developer

GenZtechies

Dec 2021 - Jul 2022 (8 months)

GenZtechies is a nonprofit community fiscally sponsored by The Hack Foundation Nonprofit. We connect young techies across Nigeria to exchange opportunities, work on innovative projects, and foster quality connections.

<https://genztechies.com>

<https://github.com/GenZTechies/gzt-web>

- Worked on refactoring the code of the Genztechies website in Nextjs.
- Maintained the codebase.
- Worked with Vercel in the deployment of the project

Full-stack Developer

Venture Garden Group

Jan 2022 - Jan 2022 (1 month)

A team of 4 was tasked with creating a product that assists individuals.

- Lead a team of 4 in creating an MVP for the product showcase
- Created schema for the database
- Assisted backend developer in fixing bugs
- Assisted frontend developer in creating the user interface

Back End Developer

HNG Internship

Aug 2021 - Oct 2021 (3 months)

- Worked on the todo plugin of Zuri-chat
- Assisted teammates in the finding bugs
- Worked on creating the calendar for the todo application
- Lead a team of 5 in working on some major endpoints
- Could not complete due to clashing schoolwork
- Worked with Laravel in creating the trash, sort, defined sort ,and delete endpoints

Graphics Designer

CIC Media TV

Sep 2020 - Oct 2021 (1 year 2 months)

I worked with some of my school colleagues which were 6 in number to create an online presence for the school.

I worked on creating posters and flyers for school programmes. I also assisted in maintaining the schools's social media accounts

I made use of Adobe Photoshop and Canva to create stunning flyers.

Photographer and Videographer

CIC Media TV

Sep 2020 - Oct 2021 (1 year 2 months)

I collaborated closely with the school's administration to make video content ideas a reality. I assisted the leads and other colleagues to cover school activities and outings, handling the camera during filming, and edited video output.

Assistant Team Lead

CIC Media TV

Sep 2020 - Oct 2021 (1 year 2 months)

I was the assistant team lead for the club created to create a social media presence for my High school. I was able to help manage a team of 6 persons and bring about the first ever Virtual Yearbook in my school.

Here is the trailer: <https://www.instagram.com/p/CUvCMaSAma1/>

Internship Training

Zuri Team, Inc.

Apr 2021 - Jul 2021 (4 months)

This internship training made me aware of how to work as a team during any setting.

It made me keep to deadlines and be on time to meetings.

The internship also made me to learn python which increased my scope of programming.

This internship programme was a short one for me because I had school exams to write but I am happy

I took part in it.

Freelance

Freelance

Jan 2020 - Jul 2021 (1 year 7 months)

I was freelancing the most at the beginning of my career and during that time I was able to work on small scale company website such as Pdcimedia which is an advertising firm here in Nigeria and other personal projects such as a twitter clone, blog, library management system and more

Check out the live site: <http://pdcimedia.com.ng/>

Education

Covenant University

Computer Science, Computer Science

Nov 2021 - Jul 2025

I was privileged to be among the first batch that came out for the admission list for the 2021/2022 academic session

I have met fellow developers which have aided me within this short period of time to become a better developer and a better person.

I am also part of a Startup lab here in Covenant University which has made me get in contact with more developers and other people in various areas of their speciality

Caleb International College

Middle School Diploma, Computer Science

2015 - 2021

The Pathway School

Elementary school degree, Elementary

2005 - 2014

Skills

Bitbucket • GPT-3 • MongoDB • Redux.js • Video Editing • Video Production • Graphic Design • Student Affairs • Canva • Next.js

Honors & Awards

Best graduating student - School Director

Jun 2015

I was flabbergasted when I was called out as the best graduating student of my elementary school.

It was unexpected because there was a lot of competition among my peers but I scaled through as the best.

3rd best student in the class - School Director

Oct 2021

It was a mixture of deep feelings for me when my name was announced as the third best student in the class.

I was working towards being the best but I am happy that I still achieved something in my stay in the school.

I am really glad those sleepless nights paid off.
